Information regarding the  
reference letters for the

‘Training Course

Molecular Medicine in Biomedical Science’

**Dear Sir or Madam,**

**You have been asked to write a reference letter for your student.**

**We thank you for taking your time and ask you kindly to provide us with more details about the following:**

Where did you meet the applicant and how well do you know him/her?  
What is your impression about his/her studying, research, social capabilities?

Please identify the strengths (weaknesses) that should be considered evaluating the applicant's potential for the planned research training.

Please indicate if you would rank the candidate in the top <3% top 3-5%, 10-20% or below 20%.

**The reference letter should also include information about:**

- Theoretical knowledge
- Experimental abilities
- Creativity/Originality
- Work independently
- Work in a team
- Motivation
- Maturity
- Proficiency in English

**And the following scores should be used to rate the above categories:**

below average, average, good, very good, exceptional, not applicable

**The reference letters should be sent to:**

Prof. Dr. Marina Pochkhua, microbiologist

Center for Molecular Diagnostics and Biotechnology, Sokhumi State

University (SSU)

Georgia, Tbilisi, 0186. A. Politkovskaia Str. № 9
